

At the December 9th 2025 Board Meeting, the board of directors of LIVINGSTON LAKES CONDOMINIUM ASSOCIATION, INC. enacted a resolution to allow owners to receive meeting notices electronically and to vote online. The benefits to the community are reduced costs, more efficient meetings and increased owner participation. Electronic voting will allow you to easily participate in the governance of our community even if you are unable to attend meetings.

We are pleased to share a demo of **GetQuorum**, which provides a brief overview of the platform and its key features. This tool will help streamline meeting notices, electronic voting, and overall participation within the community.

Please use the link below to view the demo:
